Invite friends: earn when they do tasks

Two-level shares · added every hour · friends lose nothing

∞ No cap: more friends, more tasks, more for you

Sample: your own Star Card shows your handle and code

Daily shares · no cap

5%	3%
Friends you invite: daily task points	People they invite: daily task points

One-time rewards · up to +1,000 per friend

+500	+500
Friend does the task on 5 of their first 7 days	Friend does it on 3+ days in days 24–30

1 Three steps

1. **Join, get your QR code**
   It's ready once you join; you can invite before verifying TikTok, rewards are added after.
2. **Share your Star Card**
   Post it on TikTok, LINE or IG; friends who sign up with it are yours. They get +200 when they qualify.
3. **Friends do their task, you earn daily**
   Shares start the day a friend verifies TikTok.

2 Which points are shared

✓ Shared	**Daily task points**: a friend's first vote or comment of the day = 100 × wheel multiplier (jackpot = ×10)
× Not shared	Bonus points after that: votes +10, comments +50, suggestions +50

A friend lands ×2, ×5 or ×10? Your share is ×2, ×5 or ×10 too.

3 Try the numbers

Assuming: you invite 20 friends who each invite 20 (420 people in all), each with 100 task points a day (no multiplier), for 30 days.

Level 1: 20 × 100 × 5%	100
Level 2: 400 × 100 × 3%	1,200
Per day	1,300
30 days	**39,000 points**

39,000 points a month = 3,900 TikTok coins, no cap!

One-time rewards on top: if all 20 friends qualify, +20,000.

4 When it's added and how you redeem

- Worked out **every hour**; see it under My invites on your account page.
- A day **over 1,000** share points: they wait for an admin to confirm, then all are added (ranking and other points unaffected).
- Settled on **the 5th**: **10 points = 1 TikTok coin**. Apply on **the 5th–15th** (100+ coins); the MILKYVERSE official account sends TikTok gifts to your chosen streamer while they're LIVE. Coins never go into your TikTok account.

5 Questions

Do friends lose points?
No, your share is added on top.

Is there a cap?
No, there's no cap.

Active friends?
10 task days in a period: +100 each, every period.

Use my other accounts?
No; cheating is voided.
