MILKYVERSE 奶門宇宙

Points rules at a glance
Updated November 27, 2026

Vote and comment every day to earn points, then turn them into TikTok gifts for your streamers

Daily task · Lucky wheel · Bonus points · Invite friends · Monthly gift coins

+100
Vote or comment to finish the daily task

Up to ×100
One spin of the lucky wheel a day

+500
When a friend qualifies (they get +200)

10 points = 1 TikTok coin
Settled on the 5th

1 Daily task: 100 points

Each day (Taiwan time, 00:00–23:59), do any one of these to finish the task and earn **100 points** (once a day):

- Vote for a streamer (one vote per streamer each week)
- Comment on a streamer's page: at least 10 characters (punctuation, emoji and spaces don't count), not the same as an earlier comment of yours

Guest votes, rating dancers and suggesting streamers don't count as the task.

Check-ins: task on 10 days in a period +100, on 20 days +300 more; any days count.

2 Lucky wheel: up to ×100

Once the task is done, spin once. It multiplies only that day's 100 task points:

Result	Odds	Task points
Try again	79.9%	100
×2	15%	200
×5	4%	500
×10	1%	1,000
×100 jackpot	**0.1%**	**10,000**

One jackpot winner a day: after that, anyone who lands on it gets ×10. Spin any time before midnight; if you don't, you still get the 100 points.

3 Bonus points

Votes	**+10** for each vote
Comments	**+50** first valid comment per streamer a day
Daily cap	Votes + comments up to **+1,000** a day (task points apart)
Suggestions	**+50** per approved suggestion (outside the cap)

Hidden or deleted comments, and suggestions that aren't approved or are taken down later, don't count.

4 Invite friends: no cap on shares

Your code and QR code are under "Invite friends" once you join; rewards wait until you verify TikTok.

When	You	Friend
Friend verifies TikTok, tasks on 5 of first 7 days	+500	+200
Tasks on 3+ of days 24–30	+500	—
10 task days, each period	+100	—
Daily: your friends' task points	5%	—
Daily: their invitees' task points	3%	—

Task points = 100 for the first vote or comment of the day × wheel multiplier (jackpot = ×10). **No cap**; a day over 1,000 waits for an admin.

E.g. 20 friends × 20 each (420 people at 100 a day): 1,300 a day, 39,000 a month. No cap!

5 Points into TikTok gifts

1. **Monthly periods**
   From the 1st to the last day of each month (period 2: Nov 23–Dec 31)
2. **Converted on 5th**
   10 points = 1 TikTok coin, kept under "Gift coins" on your account page
3. **Ask 5th–15th**
   With 100 coins or more, choose one streamer from the directory
4. **Sent in 2 weeks**
   The official account sends gifts of the same value while the streamer is LIVE

Who can redeem

- ✓ Your Star Card's TikTok is verified
- ✓ Each TikTok account redeems once per period
- ✓ Gift coins are kept for 12 months
- ✓ Your account is at least 30 days old
- ✓ Not to yourself or a streamer you're tied to
- ✓ Gifts are never sent during a PK battle

6 Leaderboard

- Points start again each period. The home page and leaderboard show each day's top 10 and the period totals; ties go to whoever got their last point earlier.
- You can hide your nickname on your account page.
- Admins, suspended members and accounts "under review" aren't ranked.

7 Other rules

- Taking part is free and needs no purchase; members must be 18 or older.
- After 3 days without the daily task you get a reminder email; turn it off on your account page.
- Points and gift coins have no cash value and can't be exchanged for cash or transferred.
- Rule changes are announced on the site first; a new conversion rate applies from the next period, and points and coins already earned aren't affected.

8 Fair play and "under review"

- One member account per person. No using several accounts to earn points or invite yourself, and no buying, selling or borrowing accounts.
- The system checks every hour, for example for scores far above normal, many sign-ups in a short time, several accounts from one network, or identical votes.
- Flagged accounts go "under review": you can still do tasks, but you're off the leaderboard for now, rewards are held and you can't redeem. If the admins find nothing wrong, everything is restored.
- If cheating is confirmed, the points and invite rewards involved are voided, and gift coins already converted are taken back.

Get started: sign up at milkyverse.org → vote or comment every day → spin the wheel → get your QR code in "Invite friends" → verify your TikTok under "Gift coins".
